

7.2 Best Practices

Title of Best Practice:	Voter Awareness and Registration.	AIDS Awareness
Goal	To initiate the awareness regarding voting and the importance of voting build the nation.	To aware about AIDS/HIV among the individuals of surround
Objectives	<ul style="list-style-type: none"> • To educate the individuals who are not aware of importance of voting. • To motivate first time voters. • To issued Election card through Tahasildar of Murud. 	<ul style="list-style-type: none"> • To motivate adults for the dangerous impact of this disease • To increase the awareness regarding this disease.
The Practice	<p>Democracy is a form of government in which power is held by "the people" under a free electoral system. "people" and (kratos), "rule, strength" in the middle of the 5th-4th century BC to denote the political systems then existing in some Greek city-states, notably Athens following a popular uprising in 508 BC. When we talk about democracy, the popular phrase of Abraham Lincoln comes in mind that "Democracy is of the people, for the people and by the people". This really is the ideal way of looking at the democratic system but being the biggest democracy in the world. Some of that belonged to India we will find almost fifty percent voters do not exercise their right to vote surprisingly educated middle class.</p> <p>Elections to select our representative are a sign of good democracy and it also strengthens democratic system. Elections are the best ways through which common man participates in public life. But is quite disappointing in election that many people are not aware about their right to elect Representative and they do not participate in voting process. Either they lack interest in this activity or they do not comprehend the value of their vote. Therefore, the college decided to organize campaign for voter's awareness.</p> <p>All senior college students took an oath to vote.</p> <ul style="list-style-type: none"> • Students from the Department of NSS and DLLE visited all classrooms and make students aware about voting and election process. 	<p>Human immunodeficiency virus infection and acquired immunodeficiency syndrome (HIV/AIDS) is a spectrum of conditions caused by infection with the human immunodeficiency virus (HIV), a Retrovirus Following initial infection a person may not notice any symptoms, or may experience a brief period of influenza-like illness. Typically, this is followed by a prolonged period with no symptoms. If the infection progresses, it interferes more with the immune system, increasing the risk of developing common infections such as tuberculosis, as well as other opportunistic infections, and tumours which are otherwise rare in people who have normal immune function. These late symptoms of infection are referred to as acquired immunodeficiency syndrome (AIDS). This stage is often also associated with unintended weight loss.</p> <p>HIV is spread primarily by unprotected sex (including anal and oral sex), contaminated blood transfusions, hypodermic needles, and from mother to child during pregnancy, delivery, or breastfeeding. Some bodily fluids, such as saliva, sweat and tears do not transmit the virus.</p> <p>Methods of prevention include safe sex, needle exchange programs, treating those who are infected, as well as both pre- and post-exposure prophylaxis. Disease in a baby can</p>
Evidence of Success:	The students of our college became aware about voter's registration process and many of them took initiative to be Registered for online election portal. They also concerned their contribution in the democratic process and its relation to the nation's growth and development. Nearly 90th students fill their forms in college in format	Most of the individuals who got learning from this initiative are well awarded and they are also educating others. New voters were also registered for the process.
Problems Encountered :	Not every individual was covered for the practice	Most people are narrow minded for such kind of initiative who created hurdles for speaking up publicly.
